TripInsel — Design System v3.0

> **Philosophy: "TripAdvisor for Djerba Activities"**
> Same colors · Same layout · Same trust patterns · Same UX flows
> Only difference: activities/experiences only — no hotels, no restaurants
> Focused exclusively on Djerba, Tunisia

---

1. Brand Identity

2. Color Palette — TripAdvisor Faithful

These are TripAdvisor's exact brand colors as used in their 2025 refresh.

Primary Brand Colors

```css
:root {
  /* ── PRIMARY GREEN — TripAdvisor signature ── */
  --color-primary:        #00AA6C;   /* Main brand green — buttons, links, active
  --color-primary-hover:  #007A4D;   /* Darker green — hover & pressed states */
  --color-primary-light:  #E6F7F1;   /* Very light green — chip bg, tag bg, secti
  --color-primary-bright: #34E0A1;   /* Bright accent green — highlights, badges,

  /* ── THEME COLOR (meta tag) ── */
  --color-theme:          #00eb5b;   /* TripAdvisor's exact theme-color meta valu
}
```

Neutral / UI Colors (TripAdvisor style)

```css
:root {
  /* Text */
  --color-text-primary:   #161616;   /* Headings, primary body text */
  --color-text-secondary: #555555;   /* Subtext, metadata, descriptions */
  --color-text-muted:     #999999;   /* Placeholders, disabled, captions */
  --color-text-link:      #00AA6C;   /* Inline links — same as primary */
  --color-text-inverse:   #FFFFFF;

  /* Backgrounds */
  --color-bg-base:        #FFFFFF;   /* Page background */
  --color-bg-subtle:      #F2F2F2;   /* Card bg, section bg, input bg */
  --color-bg-hover:       #E8E8E8;   /* Hover state on list items */
  --color-bg-dark:        #161616;   /* Footer, dark sections */
  --color-bg-navbar:      #FFFFFF;   /* Navbar — TripAdvisor uses white */

  /* Borders */
  --color-border:         #DDDDDD;   /* Default borders */
  --color-border-strong:  #C0C0C0;   /* Focused inputs, dividers */

  /* Star Ratings — TripAdvisor green bubbles */
  --color-bubble:         #00AA6C;   /* TripAdvisor uses green for review bubbles
  --color-star:           #00AA6C;   /* Stars = same green, not yellow */
}
```

Semantic / Status Colors

```css
:root {
  /* Booking Status */
  --color-status-confirmed:  #00AA6C;   /* Green — matches brand */
```

```
  --color-status-confirmed:  #00AA6C;  /* Green — matches brand */
  --color-status-pending:    #F2A00A;  /* Amber */
  --color-status-cancelled:  #D93025;  /* Red */
  --color-status-completed:  #555555;  /* Gray — past */

  /* Wallet / Finance */
  --color-credit:     #00AA6C;   /* Income / deposit */
  --color-debit:      #D93025;   /* Expense / withdrawal */
  --color-commission: #F2A00A;   /* Platform fee */
}
```

> **Key TripAdvisor color note:** TripAdvisor does NOT use gold/orange for CTAs. Their "Book" and "Reserve" buttons are solid `#00AA6C` green. The rating bubbles/stars are also green — not yellow. This is what makes TripAdvisor visually distinctive. TripInsel must follow this exactly.

---

3. Typography — TripAdvisor Style

TripAdvisor uses a clean, highly legible sans-serif system. Modern, accessible, no decorative serifs.

css

```
@import url('https://fonts.googleapis.com/css2?family=Mulish:wght@400;500;600;700

:root {
  /* Mulish closely matches TripAdvisor's geometric sans-serif system */
  --font-primary: 'Mulish', -apple-system, BlinkMacSystemFont, 'Segoe UI', sans-s
}
```

> **Why Mulish?** TripAdvisor uses a proprietary geometric sans-serif. Mulish is the closest open-source equivalent — clean, rounded, highly legible at all sizes. Alternatively use `'Plus Jakarta Sans'` for a slightly more modern feel.

Type Scale

css

```
:root {
  --text-xs:   0.75rem;    /* 12px — badges, status chips, legal */
  --text-sm:   0.875rem;   /* 14px — metadata, captions, review dates */
  --text-base: 1rem;       /* 16px — body default */
  --text-lg:   1.125rem;   /* 18px — card titles */
  --text-xl:   1.25rem;    /* 20px — section intros */
  --text-2xl:  1.5rem;     /* 24px — page subheadings */
  --text-3xl:  1.875rem;   /* 30px — page titles */
  --text-4xl:  2.25rem;    /* 36px — hero subheadline */
```

```
  --text-5xl:  3rem;       /* 48px — hero main headline */
}
```

Font Weight Usage

Element	Weight	Size
Hero headline	800	5xl
Page / section titles	700	3xl–2xl
Card titles	700	lg–xl
Body text	400	base
Metadata, captions	400	sm
Buttons	700	sm–base
Status badges	700	xs
Price display	700–800	lg–xl
Review score large	800	3xl–4xl

---

4. Spacing System

```css
:root {
  --space-1:   4px;
  --space-2:   8px;
  --space-3:   12px;
  --space-4:   16px;
  --space-5:   20px;
  --space-6:   24px;
  --space-8:   32px;
  --space-10:  40px;
  --space-12:  48px;
  --space-16:  64px;
  --space-20:  80px;
  --space-24:  96px;
}
```

---

5. Border Radius — TripAdvisor Style

TripAdvisor uses relatively conservative, consistent rounding — not overly rounded.

```css
:root {
  --radius-sm:   4px;     /* Small badges, table cells */
  --radius-md:   8px;     /* Inputs, small cards */
  --radius-lg:   12px;    /* Standard cards */
  --radius-xl:   16px;    /* Large cards, modals */
  --radius-full: 9999px;  /* Pills, bubbles, avatars */
}
```

---

6. Shadows — TripAdvisor Style

TripAdvisor uses subtle, realistic shadows — never dramatic.

```css
:root {
  --shadow-sm:         0 1px 4px rgba(0,0,0,0.10);
  --shadow-md:         0 2px 8px rgba(0,0,0,0.12);
  --shadow-lg:         0 4px 16px rgba(0,0,0,0.14);
  --shadow-card:       0 1px 4px rgba(0,0,0,0.10);
  --shadow-card-hover: 0 4px 16px rgba(0,0,0,0.16);
  --shadow-dropdown:   0 8px 24px rgba(0,0,0,0.14);
  --shadow-sticky:     0 2px 8px rgba(0,0,0,0.10);  /* Sticky navbar shadow */
}
```

---

7. Core Layout Patterns — TripAdvisor Identical

7.1 Navbar — TripAdvisor Structure

```
Desktop:

┌──────────────────────────────────────────────────────────────────────┐
│ [🌿 TripInsel]  [──────── Search Djerba Activities ────────🔍]  [Sign In] │
├──────────────────────────────────────────────────────────────────────┤
│  Experiences  ·  Categories  ·  Map  ·  Reviews  ·  About Djerba     │
└──────────────────────────────────────────────────────────────────────┘

Behavior:
- White background (#FFFFFF)
```

```
- Bottom border: 1px solid --color-border on scroll
- Sticky at top, adds --shadow-sticky on scroll
- Logo: "TripInsel" in --color-primary green, Mulish 800
- Search: full-width input, rounded-full, border, green focus ring
- Sign In: ghost button → after login shows avatar dropdown
- Second row: nav links, Mulish 600, hover underline in --color-primary

Mobile:
- Single row: [Logo] [Search icon] [Hamburger]
- Bottom navigation bar (fixed):
  [🏠 Home] [🔍 Search] [📋 Bookings] [💳 Wallet] [👤 Profile]
```

7.2 Hero Search Bar — TripAdvisor Homepage Style

```
Structure (same as TripAdvisor homepage):

┌──────────────────────────────────────────────────┐
│  Where to?                                       │
│  ┌──────────────────────────────────────────┐    │
│  │ 🔍  Search activities, tours, experiences...  │  │
│  └──────────────────────────────────────────┘    │
│  [Experiences] [Desert] [Water] [Cultural] [Food]  │
└──────────────────────────────────────────────────┘

- "Where to?" — Mulish 800, text-5xl, white
- Search bar: white, rounded-full, shadow-lg, large padding
- Category tabs below: pill chips, white/20 bg, white text
  Active: white bg, --color-primary text
- Full-width hero image of Djerba, dark overlay gradient
```

7.3 Activity Card — TripAdvisor Card Pattern

```
Identical structure to TripAdvisor experience/attraction cards:

┌──────────────────────────────────┐
│                                  │  ← Image (full bleed, 220px height)
│  [Category Badge]   [♥ Save]     │  ← Overlays on image
│                                  │
└──────────────────────────────────┘
│ Title (Mulish 700, text-lg)      │
│ ●●●●○  4.5  ·  (1,234 reviews)   │  ← Green bubbles
│ 📍 Houmt Souk  ·  ⏱ 3 hours      │
│                                  │
│ from €45/person   [Book on TripInsel] │
└──────────────────────────────────┘

Key TripAdvisor card rules:
```

- No heavy shadow by default, just --shadow-card
- Border: 1px solid --color-border
- Border-radius: --radius-lg (12px)
- Hover: --shadow-card-hover, NO translateY (TripAdvisor doesn't lift cards)
- Image: object-fit cover, 220px height, no border-radius on image
- Rating bubbles: green filled circles (NOT stars, NOT yellow)
- "Book on TripInsel" CTA: --color-primary bg, white text, rounded-md (NOT rounded-full)

7.4 Search Results Layout — TripAdvisor Identical

```
Desktop (same as TripAdvisor Things To Do results page):

[──────────────────── Breadcrumb: Djerba > All Activities ────────────────────]

[Sort: Relevance ▼]  [Filter: Category ▼] [Price ▼] [Duration ▼] [Rating ▼]

┌──────────────────────────────────────────────────────────────────────────┐
│ [Image]  Title                                          Price            │
│          ●●●●○ 4.5 (1,234)                             from €45         │
│          📍 Houmt Souk · ⏱ 3 hours                     [Book]           │
│          Short description 2 lines max...                               │
├──────────────────────────────────────────────────────────────────────────┤
│ (repeat rows)                                                            │
└──────────────────────────────────────────────────────────────────────────┘

Note: TripAdvisor's Things To Do results use a LIST layout (not grid) by default.
Each row: image left (120×90px thumbnail) + content right + price + CTA.
Grid view available as toggle (top right).
```

7.5 Filter Bar — TripAdvisor Style

```
Horizontal scrollable pill row (NOT a left sidebar):

[All] [Desert Safari] [Water Sports] [Cultural] [Cooking] [Diving] [Boat]
[Quad] [Spa] [Food]

Below pills, optional expanded filter panel:
  Price: [€0 ──────●──────────────── €500]
  Duration: [○ < 1hr] [● Half Day] [○ Full Day] [○ Multi-Day]
  Rating: [○ Any] [● 4.0+] [○ 4.5+]
  Features: [✓ Free cancellation] [✓ Private tour] [ ] Guided

TripAdvisor uses TOP filter bar, NOT left sidebar.
Sidebar filters only appear on mobile as a drawer.
```

8. Component Specifications

8.1 Review Bubble Rating (TripAdvisor Signature)

```
TripAdvisor's most iconic UI element — filled green circles, NOT stars.

Full:  ● (filled green #00AA6C circle)
Half:  ◐ (half filled)
Empty: ○ (outlined circle)

Score display: "4.5" (bold) next to bubbles + "(1,234 reviews)" muted

Usage:
  - All activity cards
  - Detail page header
  - Provider profile
  - Review section summary
  - Search results rows

Implementation (React):
  <ReviewBubbles score={4.5} total={1234} size="sm|md|lg" />
```

8.2 "Travelers' Choice" Badge

```
TripAdvisor's trust/award badge — exactly replicated for TripInsel.

Design:
  - Green badge with white owl icon + "Travelers' Choice" text
  OR simplified: Green ribbon/badge with star
  - Text: "Travelers' Choice 2025"
  - Colors: bg --color-primary, text white
  - Size: small (card overlay) or large (detail page hero)

Placement:
  - Top-left corner of activity card image
  - Below title on detail page
  - Category page "award winners" section

Usage rule: Only show on top 10–15% rated activities
```

8.3 Buttons — TripAdvisor Style

```
css
```

```css
/* Primary CTA — TripAdvisor green, rounded-md (NOT pill) */
.btn-primary {
  background:    var(--color-primary);
  color:         white;
  padding:       10px 20px;
  border-radius: var(--radius-md);       /* 8px — TripAdvisor uses slight roundin
  font:          700 var(--text-sm) var(--font-primary);
  border:        none;
  cursor:        pointer;
  transition:    background 0.2s;
}
.btn-primary:hover { background: var(--color-primary-hover); }

/* Secondary — outlined green */
.btn-secondary {
  background:    transparent;
  color:         var(--color-primary);
  border:        1px solid var(--color-primary);
  padding:       9px 19px;
  border-radius: var(--radius-md);
  font:          700 var(--text-sm) var(--font-primary);
}
.btn-secondary:hover { background: var(--color-primary-light); }

/* Ghost / text button */
.btn-ghost {
  background:    transparent;
  color:         var(--color-text-primary);
  border:        none;
  padding:       8px 12px;
  border-radius: var(--radius-md);
  font:          600 var(--text-sm) var(--font-primary);
}
.btn-ghost:hover { background: var(--color-bg-hover); }
```

8.4 Booking Status Badge

css

```css
/* TripAdvisor-style status chips */
.badge {
  padding: 3px 10px;
  border-radius: var(--radius-full);
  font: 700 11px var(--font-primary);
  text-transform: uppercase;
  letter-spacing: 0.05em;
}
```

```
.badge-confirmed  { background: #D4F5E9; color: #00703A; }
.badge-pending    { background: #FEF3C7; color: #8A6000; }
.badge-cancelled  { background: #FDE8E8; color: #A30000; }
.badge-completed  { background: #F2F2F2; color: #555555; }
```

8.5 Verified Provider Badge

```
TripAdvisor's trust signal for businesses:

[✓ Verified Business]

- Background: white, border: 1px solid --color-primary
- Text: --color-primary, Mulish 700, text-xs
- Icon: CheckCircle (Lucide) in --color-primary
- Shown on: activity cards, detail page header, provider profile
```

8.6 Digital Wallet Card

```
Style: TripAdvisor clean white card aesthetic (no gradients)

┌──────────────────────────────────────────┐
│  My Wallet                  TripInsel    │
│                                          │
│  Available Balance                       │

│                                          │
│  [Deposit]   [Withdraw]   [History]      │
└──────────────────────────────────────────┘

- White card, --shadow-md, --radius-xl
- "€ 1,240.50" — Mulish 800, text-4xl, --color-text-primary
- Action buttons: --color-primary outline style
- Transaction rows: same clean list style as TripAdvisor review rows
```

8.7 Notification Item

```
TripAdvisor notification panel style:

[●] [Title bold]                        [2h ago]
    [Body text, muted, 1 line truncate]

Unread indicator: small green dot (●) left, bg --color-primary-light
Read: plain white row
Divider: 1px --color-border between items
```

8.8 Activity Category Chips

```
TripAdvisor-style horizontal scroll filter chips:

[🎭 All] [🏜️ Desert Safari] [🌊 Water Sports] [🏛️ Cultural] ...

Default: white bg, 1px --color-border, --color-text-primary
Active:  --color-primary-light bg, --color-primary border & text
Hover:   --color-bg-hover

Shape: --radius-full (pill)
Font: Mulish 600, text-sm
Padding: 8px 16px
Horizontal scroll on mobile, no text-wrap
```

8.9 Review Card — TripAdvisor Style

```

│ 👍 Helpful  ·  Verified booking ✓            │
└──────────────────────────────────────────────┘

TripAdvisor rules:
- No card border on individual reviews — just divider between them
- Rating bubbles (green circles), NOT stars
- "Verified booking" trust label (key TripAdvisor pattern)
- "Helpful" count button
- Avatar: circle with initials, bg --color-bg-subtle
- Font: body text Mulish 400, review title Mulish 700
```

   [Experiences · Categories · Map · Reviews · About Djerba]

2. HERO SECTION
   Full-width Djerba photo (turquoise water, beach scene)
```

```
   - Full-width Djerba photo (turquoise water, beach aerial)
   - Dark overlay gradient (bottom 60%)
   - "Where to?" — Mulish 800, large, white
   - Centered search bar (white, rounded-full, shadow-lg)
   - Category tabs: [All] [Desert] [Water] [Cultural] [Food]
   - NO subheadline cluttering — keep clean like TripAdvisor

3. CATEGORY QUICK-ACCESS (icon grid)

10. Booking Flow — TripAdvisor "Book on [Platform]" Pattern

```
Triggered by "Check Availability" → "Book Now"

STEP 1 — Select Date & Time
  Calendar (highlight available = white, unavailable = gray strikethrough)
  Time slots as horizontal pill row (same as TripAdvisor booking)
  [Next →]

STEP 2 — Participants & Details
  [-] Adults [2] [+]
  [-] Children [0] [+]
  Special requests textarea (optional)
  Price updates live: 2 × €45 = €90
  [Next →]

STEP 3 — Review & Payment
  Activity summary block (same as TripAdvisor order summary)
  Price breakdown: 2 adults × €45 = €90.00
  Payment: [💳 Wallet (€240 available)] / [PayPal]
  Cancellation policy notice
  [Confirm & Pay €90]
```

```
STEP 4 — Confirmation (TripAdvisor "You're all set!" page)
  ✓ Booking Confirmed
  Reference: TI-4829
  "A confirmation has been sent to your email"
  [View Booking] [Explore More Activities]

Progress bar: ① Select → ② Details → ③ Pay → ④ Done
```

---

11. Trust Signals — TripAdvisor Patterns

```
1. REVIEW BUBBLES (green circles, NOT yellow stars)
   → On every card, every listing row, every detail page

2. RANKING BADGE
   "#1 of 87 Experiences in Djerba"
   → TripAdvisor's strongest trust signal — replicate exactly

3. TRAVELERS' CHOICE BADGE
   Green badge with owl/star icon
   "Travelers' Choice 2025"
   → Top 10% of activities on platform

4. VERIFIED BUSINESS BADGE
   [✓ Verified Business] green outlined chip
   → On provider profile + activity card + booking widget

5. "VERIFIED BOOKING" ON REVIEWS
   Small gray label under review: "✓ Verified booking"
   → Only on reviews from actual confirmed bookings

6. SECURE PAYMENT ROW (in booking widget)
   🔒 Secure payment · ✓ Free cancellation · 📋 Instant confirmation

7. REVIEW COUNT PROMINENCE
   Always show exact count: "4.5 · (1,234 reviews)"
   Large counts = high trust

8. RESPONSE FROM PROVIDER (in reviews)
   "Response from TripInsel partner:" italic gray text
   → Providers can reply to reviews (TripAdvisor pattern)
```

---

12. Activity Categories

```
TripAdvisor categories style — clean text labels with icons:

Desert Safari       🏜️   Category badge: amber
Water Sports        🌊   Category badge: sky blue
Cultural Tour       🏛️   Category badge: indigo
Cooking Class       🍳   Category badge: orange
Diving              🤿   Category badge: cyan
Boat Tour           ⛵   Category badge: --color-primary green
Quad Biking         🏍️   Category badge: brown
Horse Riding        🐴   Category badge: warm brown
Spa & Wellness      💆   Category badge: rose
Food Experience     🍽️   Category badge: green
```

Category badge style on cards: small pill, top-left image overlay
Colors: each category has its own subtle background — same pattern as TripAdvisor category tags.

---

13. Mobile-First — TripAdvisor App Patterns

```
Mobile layout mirrors TripAdvisor iOS/Android app:

Bottom Tab Bar (fixed):
  [🏠 Home] [🔍 Explore] [📋 Trips] [💳 Wallet] [👤 Profile]
  Active tab: --color-primary icon + label

Activity list: full-width cards (1 column), image top, content below
Search: full-screen on focus (same as TripAdvisor mobile search)
Filters: bottom sheet drawer (slides up) instead of sidebar
Booking widget: sticky "from €45 · Book" bar at bottom of detail page
Gallery: swipeable full-screen carousel
Date picker: full-screen modal (native date feel)

Touch targets: min 44×44px (Apple HIG standard)
Fonts: slightly larger on mobile (base = 17px)
```

---

14. Iconography

```
Library: Lucide React (matching TripAdvisor icon weight/style)

Key icons:
```

```
Search          → Search bar
MapPin          → Location
Clock           → Duration
Users           → Participants
Star / Circle   → Rating (use Circle filled for bubbles)
Heart           → Save / Wishlist
Share2          → Share
ShieldCheck     → Verified
CheckCircle     → Included items / Confirmed
XCircle         → Not included / Cancelled
Bell            → Notifications
Wallet          → Digital wallet
CreditCard      → Payment
CalendarDays    → Date picker
ChevronRight    → Navigation
BarChart3       → Provider earnings
LayoutDashboard → Dashboard
Settings        → Settings
LogOut          → Sign out
Award           → Travelers' Choice
Flag            → User country (on reviews)
ThumbsUp        → Helpful button
```

15. Motion & Interactions — TripAdvisor Subtle Style

TripAdvisor uses very restrained animations — no dramatic lifts or bounces.

css

```css
:root {
  --transition-fast: 0.15s ease;
  --transition-base: 0.2s ease;
}

/* Card hover — TripAdvisor: shadow change only, NO translateY */
.activity-card:hover {
  box-shadow: var(--shadow-card-hover);
  transition: box-shadow var(--transition-base);
}

/* Button hover — background darken only */
.btn-primary:hover {
  background: var(--color-primary-hover);
  transition: background var(--transition-fast);
}
```

```css
/* Page load — subtle fade in */
@keyframes fadeIn {
  from { opacity: 0; }
  to   { opacity: 1; }
}
.page-content { animation: fadeIn 0.3s ease; }

/* Booking confirmation */
@keyframes checkIn {
  0%   { transform: scale(0); opacity: 0; }
  60%  { transform: scale(1.1); }
  100% { transform: scale(1); opacity: 1; }
}
.confirm-icon { animation: checkIn 0.4s ease forwards; }
```

---

16. Responsive Breakpoints

```css
/* Breakpoints — same as TripAdvisor responsive behavior */
/* sm: 640px | md: 768px | lg: 1024px | xl: 1280px */

/* Activity grid — same as TripAdvisor cards section */
.grid-activities {
  display: grid;
  grid-template-columns: 1fr;           /* Mobile: 1 col */
  gap: 16px;
}
@media (min-width: 640px)  { .grid-activities { grid-template-columns: repeat(2,
@media (min-width: 1024px) { .grid-activities { grid-template-columns: repeat(3,
@media (min-width: 1280px) { .grid-activities { grid-template-columns: repeat(4,

/* Detail page split */
.layout-detail {
  display: grid;
  grid-template-columns: 1fr;           /* Mobile: single col */
```

```
  grid-template-columns: 1fr;          /* Mobile: single col */
}
@media (min-width: 1024px) {
  .layout-detail { grid-template-columns: 1fr 360px; gap: 32px; }
}

/* Page container */
.container { max-width: 1200px; margin: 0 auto; padding: 0 24px; }
@media (max-width: 640px) { .container { padding: 0 16px; } }
```

17. Claude Prompt Templates

Paste these directly into Claude to generate TripInsel UI components.

Prompt A — Tourist Homepage

```
Create a React homepage for TripInsel — an activity marketplace for Djerba,
Tunisia.
Design must be IDENTICAL to TripAdvisor's visual style.

TripAdvisor design rules to follow:
- Primary color: #00AA6C (green) for buttons, links, active states
- NO yellow/gold — TripAdvisor uses green for everything including ratings
- Font: Mulish (700–800 for headings, 400 for body)
- Cards: white bg, subtle 1px border, slight shadow — no dramatic effects
- Rating: green filled circles (not yellow stars) — TripAdvisor signature
- Buttons: rounded-md (8px), NOT rounded-full pills

Sections to include:
1. Sticky white navbar: "TripInsel" logo (green) + full-width search bar + Sign
In
   Second row: [Experiences · Categories · Map · Reviews · About Djerba]

2. Hero: Full-width Djerba beach background, dark overlay,
   "Where to?" headline (Mulish 800, white),
   Centered white search bar (rounded-full),
   Category chips below: [All][Desert Safari][Water Sports][Cultural][Food]

3. "Find activities by category" — horizontal icon+label scroll cards

4. "Experiences travelers love" — 4-col activity card grid:
   Each card: image (220px), category badge overlay, title, green bubble
rating,
   location, price "from €45", green "Book" button
```

```
5. "Travelers' Choice — Best of Djerba 2025" — green award section
   with top 3 activities listed

6. Dark footer (#161616): links + "© 2025 TripInsel"

Use Next.js App Router (Server Component). Use next/image for all images.
Use Tailwind CSS. Use Lucide React for icons.
Make it pixel-close to TripAdvisor's aesthetic.
```

Prompt B — Activity Detail Page

```
Create a React ActivityDetailPage for TripInsel. Must look like a TripAdvisor
attraction page.

TripAdvisor design rules:
- Colors: #00AA6C primary, white bg, #F2F2F2 subtle bg, #161616 text
- Rating: green filled circles (5 bubbles), NOT yellow stars
- "# of 87 Experiences in Djerba" ranking badge
- Font: Mulish

Left column (flex-1):
- Photo gallery: 1 large image + 2×2 grid thumbnails (TripAdvisor mosaic)
- Title (Mulish 800) + [Travelers' Choice] badge if top-rated
- Green bubble rating + review count + ranking "#1 of 87 in Djerba"
- Quick stats row: ⏱ Duration · 👥 Group size · 📍 Location · 🌍 Language
- About section (expandable)
- What's Included (green ✓ checklist) / Not Included (× list)
- Requirements
- Map placeholder
- Provider card: avatar + name + [✓ Verified] badge + rating
- Reviews section:

  Rating summary (large score + 5-bar breakdown)
  Sort dropdown
  Review cards (TripAdvisor style: no border, just divider)

Right sticky widget (360px):
- "from €45 per person" (Mulish 700)
- Date picker
- Time slots: horizontal pills (selected = green bg)
- Participants [-][+]
- Total price (live)
- [Check Availability] green button (full width)
- Trust row: 🔒 Secure · ✓ Free cancellation · 📋 Instant confirm
```

```
Next.js App Router. next/image for photos. Tailwind CSS + Lucide React icons.
```

Prompt C — Search Results (TripAdvisor "Things To Do" Style)

```
Create a Next.js SearchResultsPage for TripInsel. Must look like TripAdvisor's
Things To Do results page.

TripAdvisor design rules:
- List layout (NOT grid) by default — image left + content right
- Rank numbers shown (1. 2. 3.) — TripAdvisor's signature pattern
- Green bubble ratings (NOT yellow stars)
- Horizontal top filter bar (NOT left sidebar)
- Colors: #00AA6C primary, white/gray neutral

Components:

1. Breadcrumb: Djerba > All Activities

2. Page title: "All Activities in Djerba" + count

3. Filter chips row (horizontal scroll):
   [All] [Desert Safari] [Water Sports] [Cultural Tour] [Cooking] [Diving]
[Boat] [Quad] [Spa] [Food]

4. Sort + filter bar:
   "Sort" dropdown + [Category▾] [Duration▾] [Price▾] [Rating▾]

5. Results list:
   Each row (ranked list):
   ┌──────────────────────────────────────────────────┐
   |  1.  [120×90 image]  Activity Title              |
   |                      ●●●●○ 4.5 · (1,234 reviews) |
   |                      Desert Safari · 3 hours     |
   |                      Short description 2 lines   |
   |                      ✓ Free cancellation from €45 [Book]|
   └──────────────────────────────────────────────────┘

6. Pagination: ← 1 2 3 ... 24 →

Next.js App Router. Tailwind CSS + Lucide React.
```

Prompt D — Provider Dashboard

```
```

```
Create a Next.js ProviderDashboard for TripInsel. Clean, professional — similar
to TripAdvisor for Business.

Design:
- White + light gray (#F2F2F2) — same TripAdvisor neutral aesthetic
- Primary #00AA6C for active states and CTAs
- Font: Mulish
- Left sidebar nav (240px white, left border on active items in green)

Sidebar nav items (with Lucide icons):
  Overview · My Activities · Bookings · Wallet · Profile · Settings

Overview page:
  Greeting: "Good morning, Ahmed 👋" (Mulish 700)

  4 stat cards (grid):
    Total Bookings: 124  |  Revenue: €5,840
    Avg Rating: ●●●●● 4.8  |  Completion: 97%

  Recent Bookings table:
    Columns: # | Activity | Date | Guests | Total | Status | Action
    Status chips: [CONFIRMED] green / [PENDING] amber / [CANCELLED] red

  CTA: [+ Add New Activity] button — green, prominent

Activity list page:
  Grid of provider's activities:
  [Image] [Title] [Category badge] [Rating bubbles] [Status: Active/Inactive
toggle]
  [Edit] [Delete]

Next.js App Router ('use client' for interactive parts). Tailwind + Lucide
React.
```

Prompt E — Digital Wallet

```
Create a Next.js WalletPage for TripInsel ('use client'). Clean, trustworthy —
TripAdvisor aesthetic (light, white-dominant).

Design: White bg, #00AA6C primary, Mulish font, NO dark gradient cards

Sections:

1. Balance card (white, --shadow-md, rounded-xl, border):
   "My Wallet" heading
   "Available Balance" label
```

```
   "€ 1,240.50" (Mulish 800, text-4xl, #161616)
   [Deposit] [Withdraw] — green outline buttons

2. Payment Methods:
   PayPal row: PayPal icon + connected email + [Connected ✓] green badge
   [+ Add Payment Method] — dashed border card

3. Transaction History:
   Tabs: [All] [Deposits] [Withdrawals] [Commissions]
   Each row:
     [Circle icon] Description                Date      Amount
     🟢 Booking income — Flamingo Tour        Jun 10   +€120.00
     🔴 Withdrawal to PayPal                  Jun 08   -€300.00
     🟡 Platform commission                   Jun 08   -€12.00

   Amount colors: green for +, red for −, amber for commission

Next.js App Router ('use client'). Tailwind CSS + Lucide React icons. Clean and
trustworthy.
```

---

18. Tech Stack

```
Framework:      Next.js 14+ (App Router) + TypeScript
Styling:        Tailwind CSS v3
Icons:          Lucide React
Fonts:          next/font (Mulish or Plus Jakarta Sans — self-hosted, no FOUT)
Maps:           Leaflet.js + React-Leaflet (dynamic import, no SSR)
State:          Zustand
Server state:   TanStack Query (React Query) — client components
Routing:        Next.js App Router (file-based, no React Router)
Animations:     Framer Motion (used sparingly — TripAdvisor is subtle)
Date handling:  date-fns
Forms:          React Hook Form + Zod
Payments:       PayPal JS SDK (dynamic import, client-only)
i18n:           next-intl (Next.js-native i18n)
Charts:         Recharts (admin/provider stats)
Images:         next/image (optimized, replaces <img> everywhere)
API:            Next.js Route Handlers (app/api/**)
Auth:           NextAuth.js v5 (supports Tourist / Provider / Admin roles)
```

Next.js-specific notes:

- Use 'use client' directive only where needed (maps, forms, wallet, booking widget)
- Pages (homepage, search, detail) = Server Components for SEO + fast load
- next/image for ALL activity photos — automatic WebP + lazy loading

- next/image for ALL activity photos — automatic WebP + lazy loading
- Dynamic imports for Leaflet map (no SSR) and PayPal SDK
- Middleware for role-based route protection (tourist/provider/admin)

---

19. Localization

```
Languages:
  1. English (en) — default
  2. French (fr) — Tunisian urban users + European tourists
  3. German (de) — large Djerba tourist market
  4. Arabic (ar) — RTL required (dir="rtl", logical CSS properties)
  5. Italian (it)

Currency: EUR (€) default — also TND (د.ت), USD ($)
Date: DD/MM/YYYY

RTL notes:
  - Flip all directional icons (ChevronRight → Left)
  - Use margin-inline-start / padding-inline-end
  - Test card layouts, filter bars, and booking widget in RTL
```
